

If you find this, this is basically just how i felt towards birdie throughout time. Each entry from the past is written from my pov at the time, while the current ones is my current pov and how i feel now.

October 2017: not really sure who they are. I just heard birdie get mentioned. some people said "isnt birdie a sans fangirl" and others would say "oh birdie WAS a sans fangirl but they arent anymore"

December 2017: I finally took some time out of my life to search up birdie's channel. its pretty good. the first video i watched was the "greedy meme self collab".

January 2018: I watched birdie's channel here and there. I saved his playlist "ferret animations" to my saved playlists and i would binge watch his animations sometimes. I didnt know too much about him or his ocs though. I didnt even know what a "fontik" was.

February 2018: despite binge watching his animations I never got to see all of his videos before his channel got terminated. I still remember one of the last days before his channel got terminated, i was watching a video of him, his sister, and his ferret. the next day scootaloo loves sans uploaded a video called "save birdie" and i watched it. she said his channel might get taken down and explained the situation with the strikes he got and shit. i commented #savebirdie and subscribed to the strawberrix channel where he moved to. the next day i got on and it was too late. people replied to me saying "oh its too late" and i was like "IT CANNOT BE TRUE" and i checked his channel and it was gone. terminated. I was so sad bc there were SO MANY videos i hadnt got to see from him so i relied on those "birdie reuploads" channels. however, those channels had a tendency to reupload the same animations like "pollys beach walk" and "chu chu lovely" and what not and it was only his animations they uploaded and i barely got to watch his irl vids. oh well.

March 2018: at this point i started trying to pay more attention abt the drama and his characters and whatnot. he posted a drawing of his oc 7 crying and i got it mixed up with birdie and commented "i hope ur ok" im so stupid Jdndmsmsmnssd. on the other hand i had this weird dream on March 2nd that i kinda kissed birdie. not sure what this means. i dont even have any feelings like that towards him. im just a fan who is very new to his channel and barely knows shit about him. i needed to get the dream out so i told him "i had a dream we kissed" (ik im stupid) and he just said "NO" in response. i mean. i wouldve said the same thing if someone told me they kissed me in a dream.

April 2018: i started trying to change my artstyle to look like birdies. or at least its my attempt at his style. i think i might legit have feelings for him now though. like i legit think i have a crush on him bc ive been seeing him in that way. FHnmdmmsn.

May 2018: im a birdie fangirl pfft. i wouldnt call myself "obsessed" but im sure others would so ig im "obsessed" with birdie now. dont worry though! everyone is SUPER supportive!! all my friends are super nice and chill about it. birdie doesnt even know either :]

June 14th 2018: im kinda sad bc birdie has a boyfriend and theyve been dating in secret bfbfndndmdmd fJAJAJAJAAN vj . however, my friends and even some strangers are still being SUPER FUCKING SUPPORTIVE of me though and im so happy about it! i said i had a huge crush on birdie and someone said "you'd be a great girlfriend to birdie" and i smiled so big EEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEE

June 30th 2018: birdie found out abt my obsession a few days ago and he hates me now. he said i was creepy, made fun of me, and said i was probably faking wanting to die. i still like him but im rather heartbroken now so if a bunch of cuts randomly show up on my arms and legs one day, thats why. also my mom might ground me from tech because she saw me on discord and i refused to show her bc i didnt want to be in trouble and have her go through my account so she said she'd go through it later. i tried to sneak up and clear the history but i couldnt because my mom started at me the whole time while i turned it off. Also that boyfriend birdie had? theyre broken up now. they have been for weeks now and im sorry birdie, but i kinda danced to the best day ever song when the news broke out. Im a bad person nmmdms s d.

July 2018: HNNGGG im officially banned from ALL technology bc my dad caught me on discord and said "WHAT ARE YOU DOING?" and i hurried up and tried to hide it from him. i cant see birdies new content on deviantart now. good for me though i can still access youtube!! he NEVER uploads anymore though. all ive been doing now is drawing me x birdie shipart, vents about birdie hating me, and random character designs. GOD i miss the internet.

August 2018: school started this month! I can get on the internet from my school computer. just not all day and im only allowed on pixilart. I sneak on youtube though to listen to music and watch birdie!!!

September 2018: birdie is obsessed with ribchills/fontik but it somehow makes me feel good though. like i feel like it normalizes my obsession with birdie bc i have the same feelings that birdie has towards ribs towards birdie. also i tried to sneak back on google plus and apologize to birdie. he never answered and then my mom found

it and deleted it. that was my only line of contact with him too because. no discord, im banned from deviantart, no google plus now, and he doesnt respond to comments on youtube either so f.

October 2018: MMMFFFFFFF birdie has a new sona called Lucifer and HE IS SO COOL I LOVE HIM SO MUCH AAAA. AND SO IS BIRDIE AAAAA i wish i could at least be his friend

November 2018: what if i redid i dropped my tortilla but with cocoa and lucifer. HAHahaha jkjkjk. But seriously i love birdie sm idek whyyyy

December 2018: shit has been coming down and i cant tell if birdie and himeguts/ribchills are friends, dating, or if they hate eachother. a lot have shit came down about birdie faking being trans, abusing his ferret, and being an evil wannabe rapist. he explained and defended himself on stream though. i hope this works and ppl stop fucking harassing him. if it doesnt, atleast ill still be there to defend him  
January 2019: my obsession is slowly dying down. Like i still love him but im not as obsessed as before. also me and hime talked and they helped me find my own art style so i can stop copying birdies. YAYY. however, someone else who i loved hates me now and they left. i feel like shit rn.

February 2019: that person i loved? I hate them now. I heard some shit abt them and just ew. i still like birdie but not as much as before still. I do 100u49430029388439% support him tho. Hes a good boye.

March 2019: fhsskssjd im obsessed w/ some1 else now and i never rlly think abt birdie before. Im gonna try 2 draw myself w/ him to try to bring back some shit or just as some experiment.

April 2019: I THINK I MIGHT BE GETTING OVER BIRDIE??? Like i still support him but i dont think i have a crush on him anymore. on the other hand my obsession with this other person is worsening and everyone is harassing me. someone told me to hang myself bc everyone would finaly be happy if i did and i got banned from pixilart

May 2019: a teensy lil bit of feelings just came back for birdie ok. also my obsession with that other person? Its dying down.

June 2019: i dont have feelings for either person now. im just a fan of birdie and i just see that other person as nothing other than a person.

July 2019: i think i might like birdie again after all. Not at all like before, but maybe like a small crush? ldfk. also him and stix are friends again. not trying to be rude to

birdie because i lov him but ill give it 2 weeks. i know what stix is like. stix seems pretty chill and cool rn but idk. maybe im paranoid.

August 2019: i cant even tell if i have feelings for birdie rn. i know i for sure support him tho. also that person i was obsessed with from march-june? we're cool now B).

September 2019: there is a tiny chance i might have a crush on birdie but i cant tell. lets just go with the "i do".

October 2019: fhshshsnsns i think i rlly do like birdie again not in an obsessive way like in 2018 though.

November 2019: nvm ^ that birdie thing was a very shortly lived phase. im jus a fan againnnn. ALSO GUESS WHAT? in august i was able to make a deviantart and ive been sending my fanart to birdie and he LIKES it!!!! he also answers my questions and responds to my comments. he is rlly nice. Idk why so many ppl hate him. like i dont know him personally but i have had interactions with him on deviantart comments and he is really chill and sweet. also he is dating goatcatto now cool.

December 2019: he and goatcatto broked up but he's dating someone new now! his new partner, racco, seems rlly cool and chill. so many people are like "ill give them 5 minutes" but i have high hopes for them!! also i drew shipart of birdie and his new partner and his partner LIKED it!!!!!! im so happy :D

January 2020: SOOO i commented saying birdie should bring back gay master [or w/e his name is] bc its been 2 years and i woke up the next day on my legit BIRTHDAY and saw he brought gay master back!! im gonna try my best to call him jack or sprite now since he doesnt go by birdie anymore. i just have a bad habit of saying birdie since ive been used to that sice like 2017 hjddmdmdd. OH AND RACCO AND JACK HAVE BEEN TOGETHER FOR ONE WHOLE MONTH IM SO HAPPY FOR THEM!!!

February 2020: i still have been standing up for him. im still just a fan. AND 2 MONTH ANNIVERSARY FOR RACCO AND JACK WOOOO.

March 2020: 3 MONTHS OF RACCO AND JACK BEING TOGETHER. take that, haters. but anyway jack is being accused of being transphobic for not using himeguts' "pronouns" and shit even though he said hime is faking it :/. Theyre just a bunch of himey whiteknights lmao

April 2020: jack left for a long time this month and he got raided and harassed by the guts gang. it was awful and i was so happy when he came back. this didnt last for long though bc he blocked me later this month and i have no clue why D:

May 2020: i keep trying to “harass” hime as the himey whiteknights call it as some sort of subtle way of getting jack to like me again. however jack made rlly rude ass comments on my page though and said he hated me and i was ridiculous. he also called me a pussy for deleting his negative comments and when i brought up how he does hides every hate comment he gets and blocked the comment author he told me not to “bring him into this”. im not rlly sure what to think of this anymore. I sortof still support him but at the same time i sort of hate him for what he said to me. also his friends make fun of me in his server wtf.

June 2020: i decided i probably hate birdie now.

Around the end of June 2020: i think i like him again though im obsessed again so FUCK. at least its not as worse as it was in 2018 though.

July 2020 : FUCK ITS GOTTEN WORSE AND BIRDIES FRIENDS KEEP HARASSING ME AND SOMEONE WHO WAS MY FRIEND LEFT THSNAMA SNAMAMAA HELP I WANNA DIE

August 2020: meh still the same

Late August-Early-Septemberish 2020: meh i was started to have second thoughts about supporting birdie and then i ultimately decided i dont support him anymore so uh fuck jack, all my homies hate jack.

September 2020 : ppl r assuming i still like birdie bc i still like his characters. wtf? are they actaully stupid?

October 2020: DUDE BIRDIE IS CLAIMING HE DOESNT TALK ABOUT CHARLIE ANYMORE HAHA. IM GONNA \*PRESSES X TO DOUBT\* cause yknow, its BIRDIE. everytime he says “oH N-NO IM GONNA CHANGE I SWEAR” he just gets worse.

November 2020: lmao a new account showed up on pixilart called “queefcakes” or some shit. im pretty sure its racco bc thats the most racco username i ever saw (bitch made an account a few months ago to be a bitch to me called hehefarts69 so...) and so im just assuming its racco. they claim im still obsessed with birdie bc i made wiki pages for his ocs? i only do that bc i like his characters still and when i rlly like someones characters i do this thing where i HAVE to write bios about them idk why it makes me rlly happy tho to make those bios of characters i like so.

December 2020: OH MY GODDD. Birdie has gotten worse AGAIN. So yknow racco? Him and birdie arent friends anymore because he thought that birdie was genuinely changing for a bit now but birdie faked his own death to him and he broke things off with birdie but now birdie is harassing him and making weird ass comments about him and his genital areas. WHICH IS GROSS. he keeps calling him a "whore" and saying rllly sexualised things about him and its just WTF. also bitc tried to fuck his ferret wtf.

January 2021: so i decided im on Julian/Dlazwa(Racco)'s side. so anyway stan julian, not jack(ass).

Now (2021): yeag so i dont support birdie at all. Julian is cool, toxie is cool, purple is cool, fuck it, THEYRE ALL COOL. i feel so bad for julian too rn. Like wtf is even wrong with birdie and why do ppl still support him in 2021. Also apparently he is abusing his current boyfriend Kat. bitch doesnt need a boyfriend, hes a nut. he needs to get put in the looney bin or some shit. im genuinely concerned for him. He is still with birdie and their relationship is so toxic. Also a fren/mutual told me that julian feels bad for being not nice to me in the past and i forgive him for that :]

October 2021:

Lol I support birdie again. I started up again in late June.

Now [June 15th, 2022]:

I don't care for birdie anymore. I don't hate him and I'm not a uwu birdie fan either.
